# The INVISTA Reclamation Program

---

- Program is open to all facility managers, building owners, dealers, and carpet mills
- INVISTA's nationwide reclamation program will collect and reclaim any used carpet
  - All fiber types
  - All carpet constructions
  - Any manufacturer
- No carpet will be sent to landfills

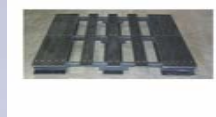

# Recycling Options

---

- Customer ships carpet to INVISTA Reclamation Center in Calhoun, GA.
- INVISTA provides containers for collection of post consumer carpet at customer preferred site and transports to Reclamation Center for recycling.

# Life After Carpet

- INVISTA processes the reclaimed carpet into valuable material for use in recycle products.
- Recycled materials may be used in a variety of applications:
  - New carpet
  - Carpet cushion
  - Natural grass tiles
  - Filtration devices
  - Automotive parts
  - Packaging materials
  - Furniture

# Specifying a Difference

- Specify reclamation using a CSI-formatted specification available on [www.antron.invista.com](http://www.antron.invista.com) (Under resources/specifications)
- Contact an Antron® Fiber Consultant to arrange logistics
  - Located in major cities across the U.S. and Canada
  - Call 1-877-5ANTRON
  - [www.antron.invista.com](http://www.antron.invista.com)(Under Resources/Fiber Consultants)
- Calculate the environmental impact of recycling carpet vs landfill
  - [www.antron.invista.com](http://www.antron.invista.com) (Under Tool Box/Carpet Reclamation calculator)
